You and your colleagues are cordially invited to join us for a special technology preview event. Don't miss this opportunity to get your sneak peek of Microsoft® Exchange Server 2010!

As experts in Exchange Server, we can show you how the newest version of this messaging and collaboration solution helps you achieve new levels of reliability and performance. Its features help simplify your administration, protect your communications, and meet increasing demands for greater business mobility. Attend our sneak peek event and see for yourself how Exchange Server 2010 can help you:

- Take advantage of a highly flexible deployment platform that is simple and reliable.
- Give people the freedom of greater mobility and flexible access from virtually any platform, Web browser, or device.
- Help protect your company's communications and simplify compliance with integrated information and loss prevention tools.

Register for our sneak peek event today!
